SOCIAL NETWORK SPACE IN THE PAGIRINYA REFUGEE SETTLEMENT

Responsive Open Source Modular Housing Prototype

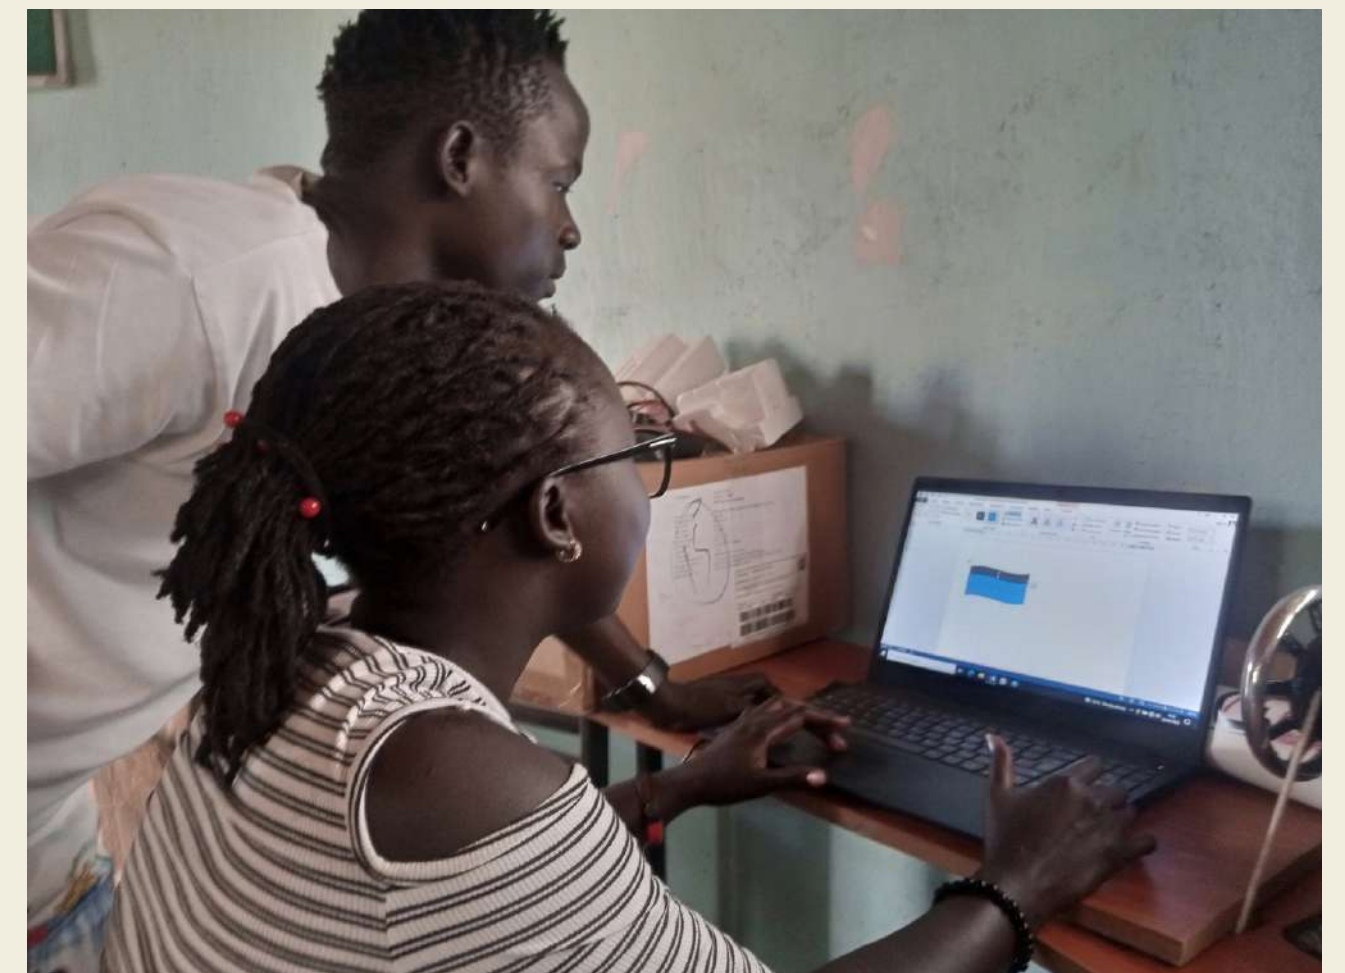

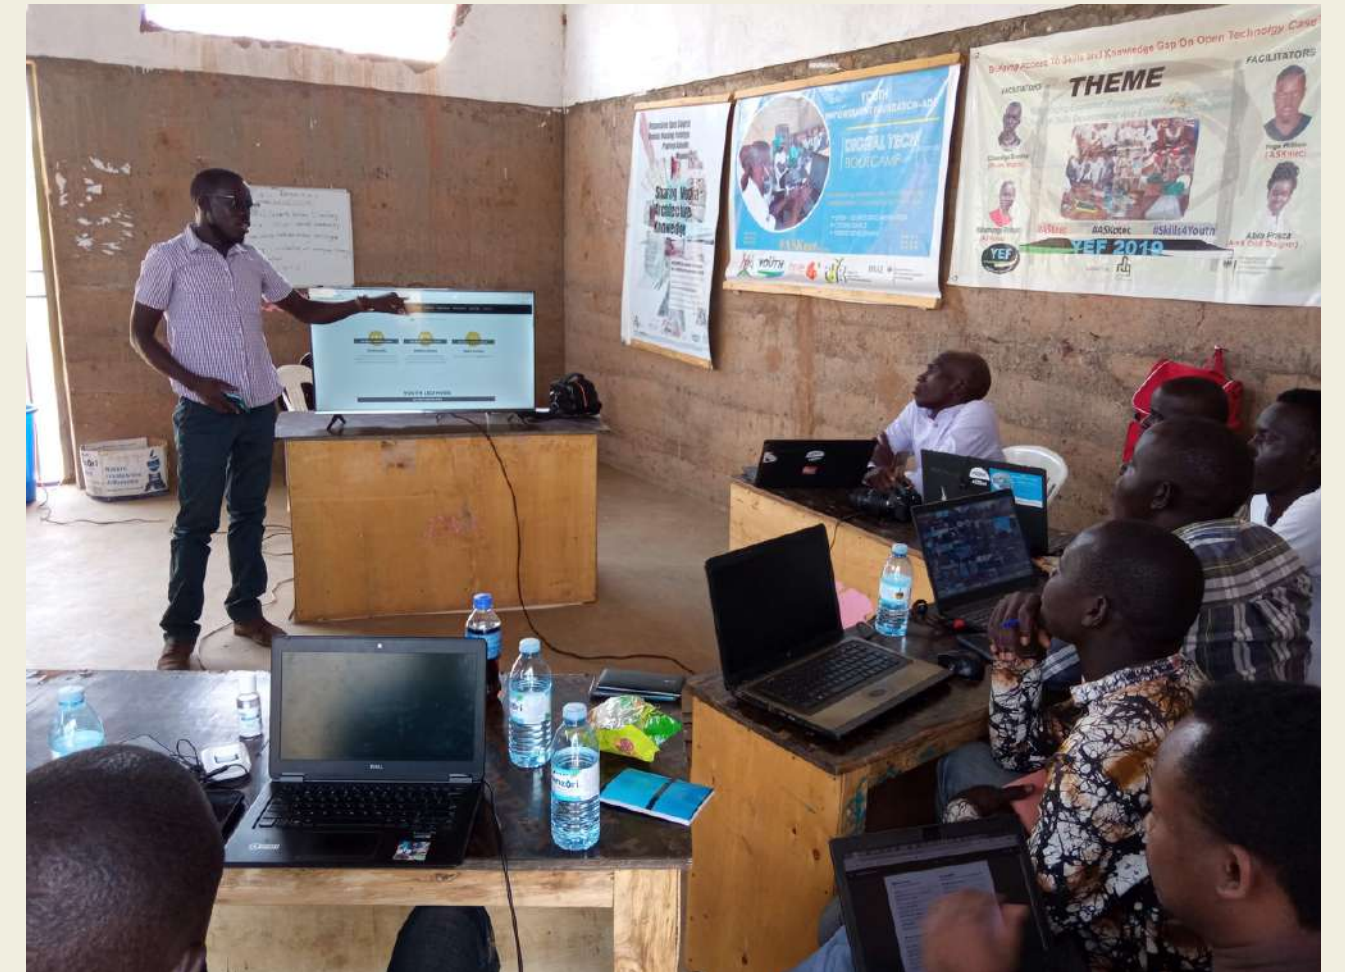

Pagirinya Refugee Settlement

Pagirinya refugee settlement in Adjumani District in Northern Uganda houses more than 32,000 refugees (UNHCR, 2019) from South Sudan. Started in 2016, it has become a place where people from various backgrounds unite to establish a sense of community.

#ASKnet

Youth Empowerment Foundation, YEF

YEF, a member of the Access to Skills and Knowledge Network (#ASKnet), operates out of the Pagirinya Refugee Settlement. They are a media skills and youth innovation organisation that serves South Sudanese refugees and host communities in Adjumani District.

OPERATIONAL CHALLENGES

01

LACK OF COMMUNITY SPACE

Limited availability of spaces that the youth in Pagirinya could gather, share ideas, and acquire knowledge

02

LACK OF RESOURCES

Limited resources within the refugee led organisation to buy building materials and expertise

03

THREAT OF COVID - 19

Lack of spaces with adequate ventilation and health precautions in the midst of the global covid 19 pandemic

COVID-19

KEY HOUSE PRINCIPLES

Natural ventilation

A house with natural
ventilation all year round.

Electricity independent

A house to operate
independent of electricity.

#ROSHOP

Distributed, Digital,
and Media based

THE DISTRIBUTED TEAM

100%
ONLINE

100%
DOCUMENTED

100% REPLICABLE

Through design and open source documentation

Buidling with
what's available

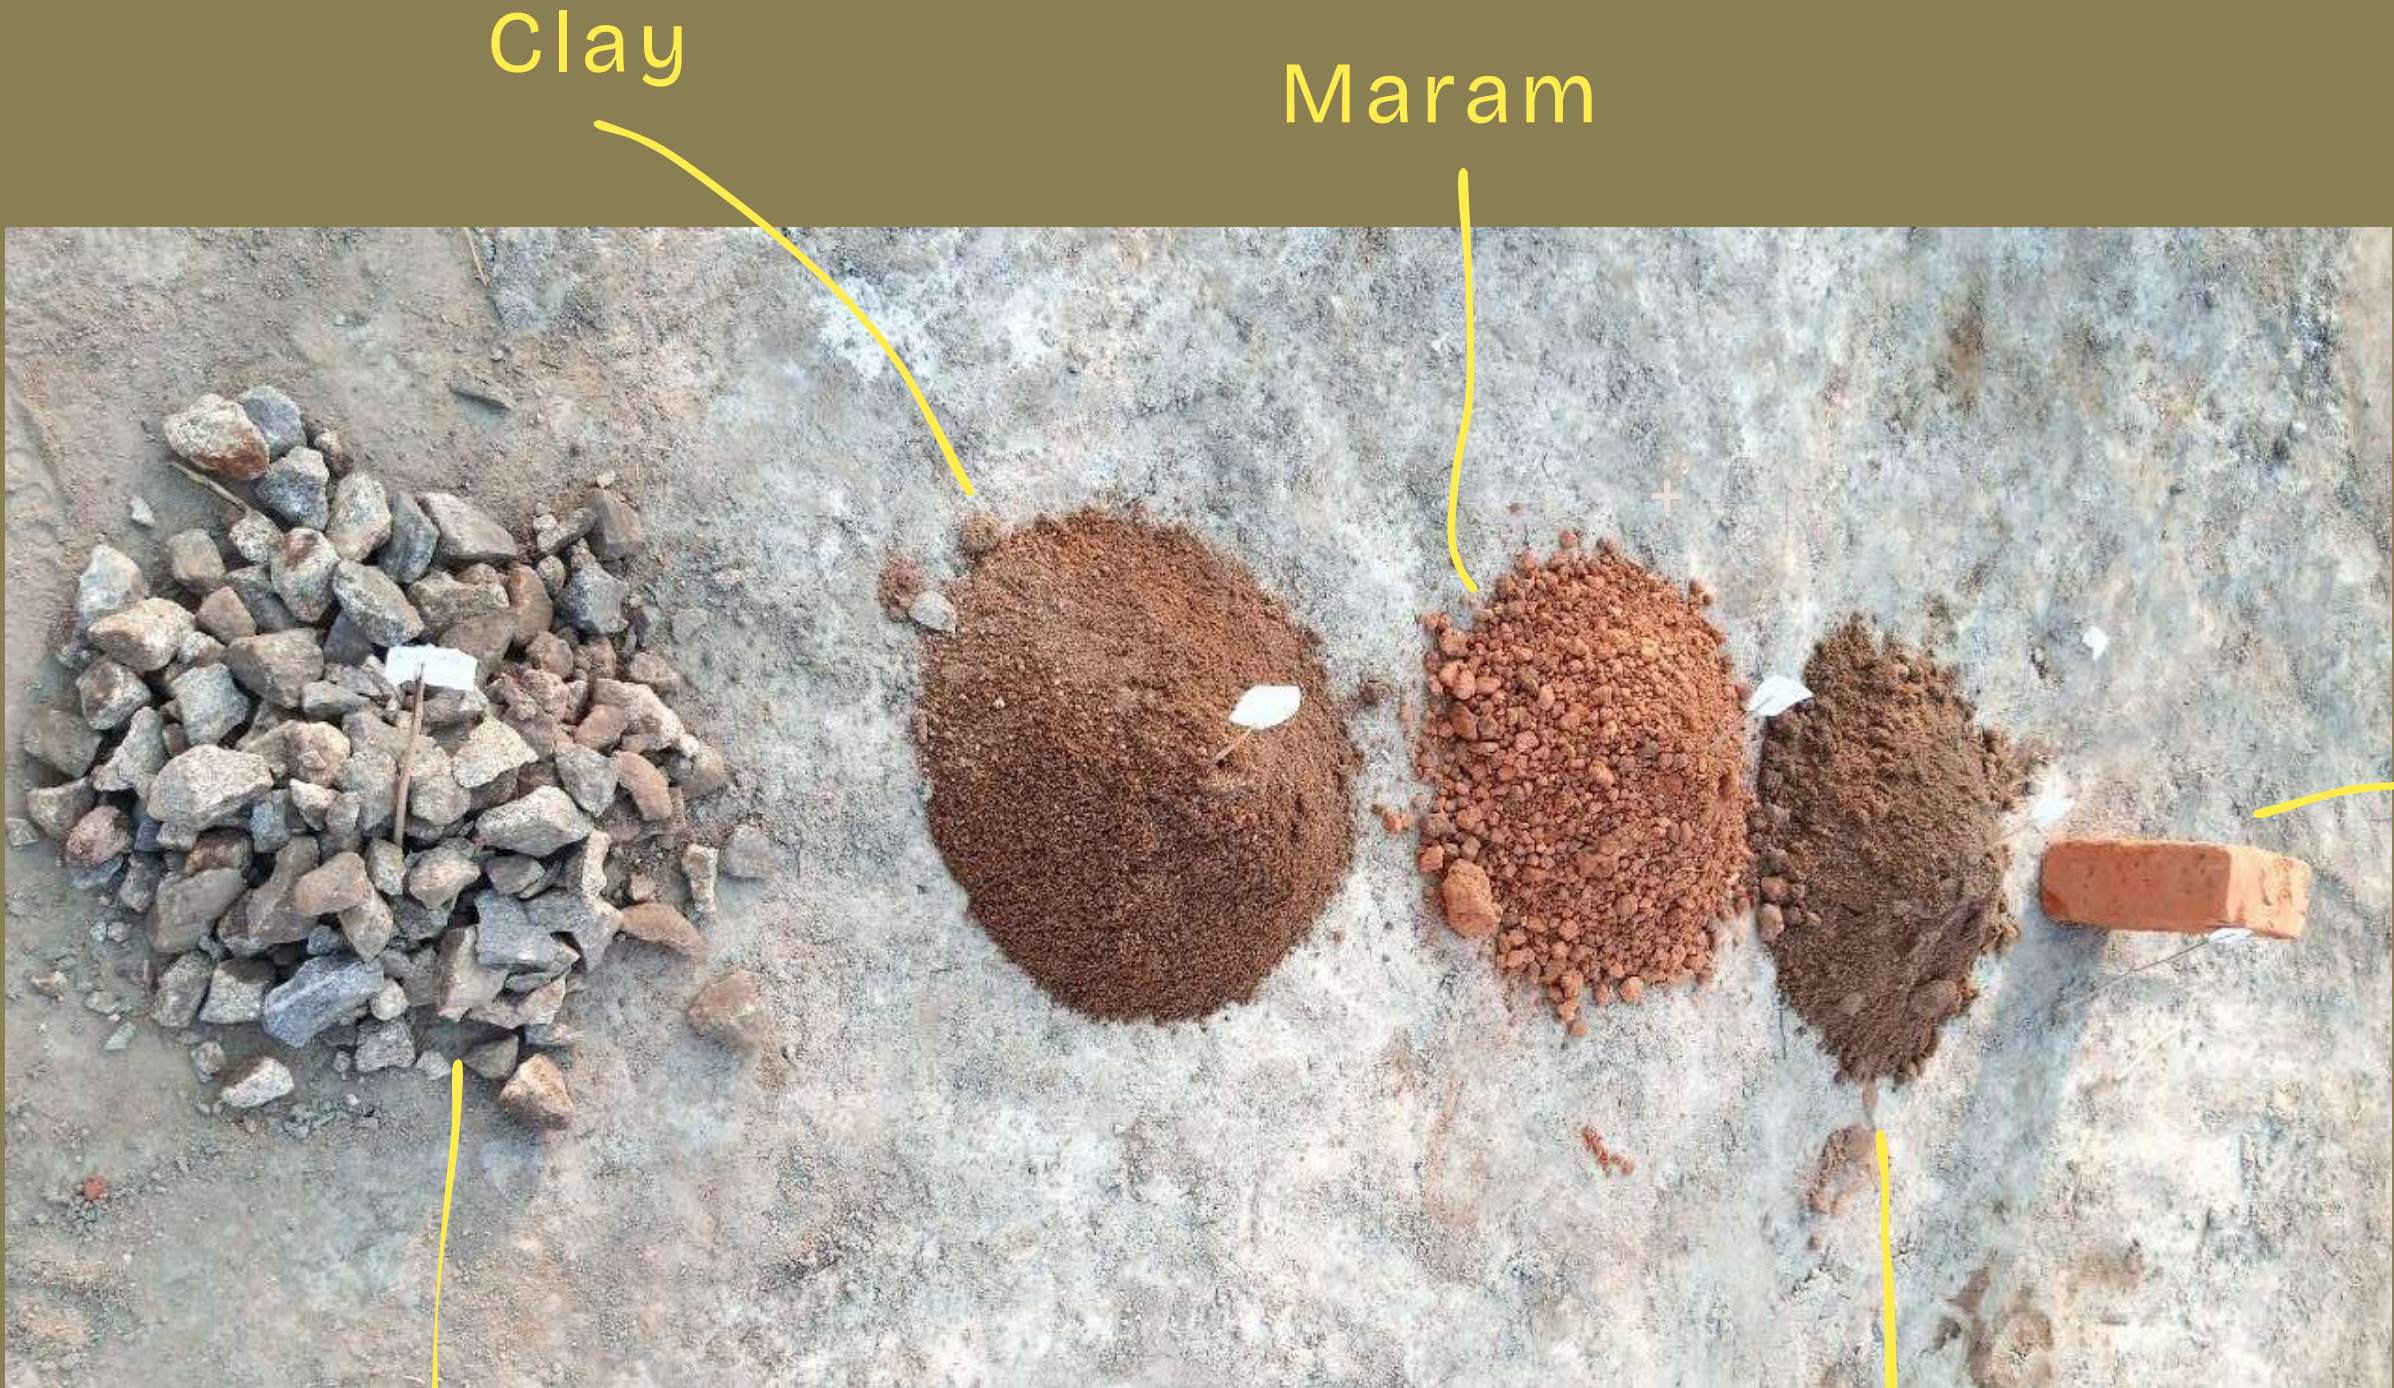

Incorporating the
traditional tukul
into the house
design

COMMUNITY COLLABORATION

LOCAL MATERIALS

Clay

Maram

Aggregate

Sand Soil

Brick

Using only
material that is
local to Pagirinya,

RAMMED EARTH TECHNOLOGY

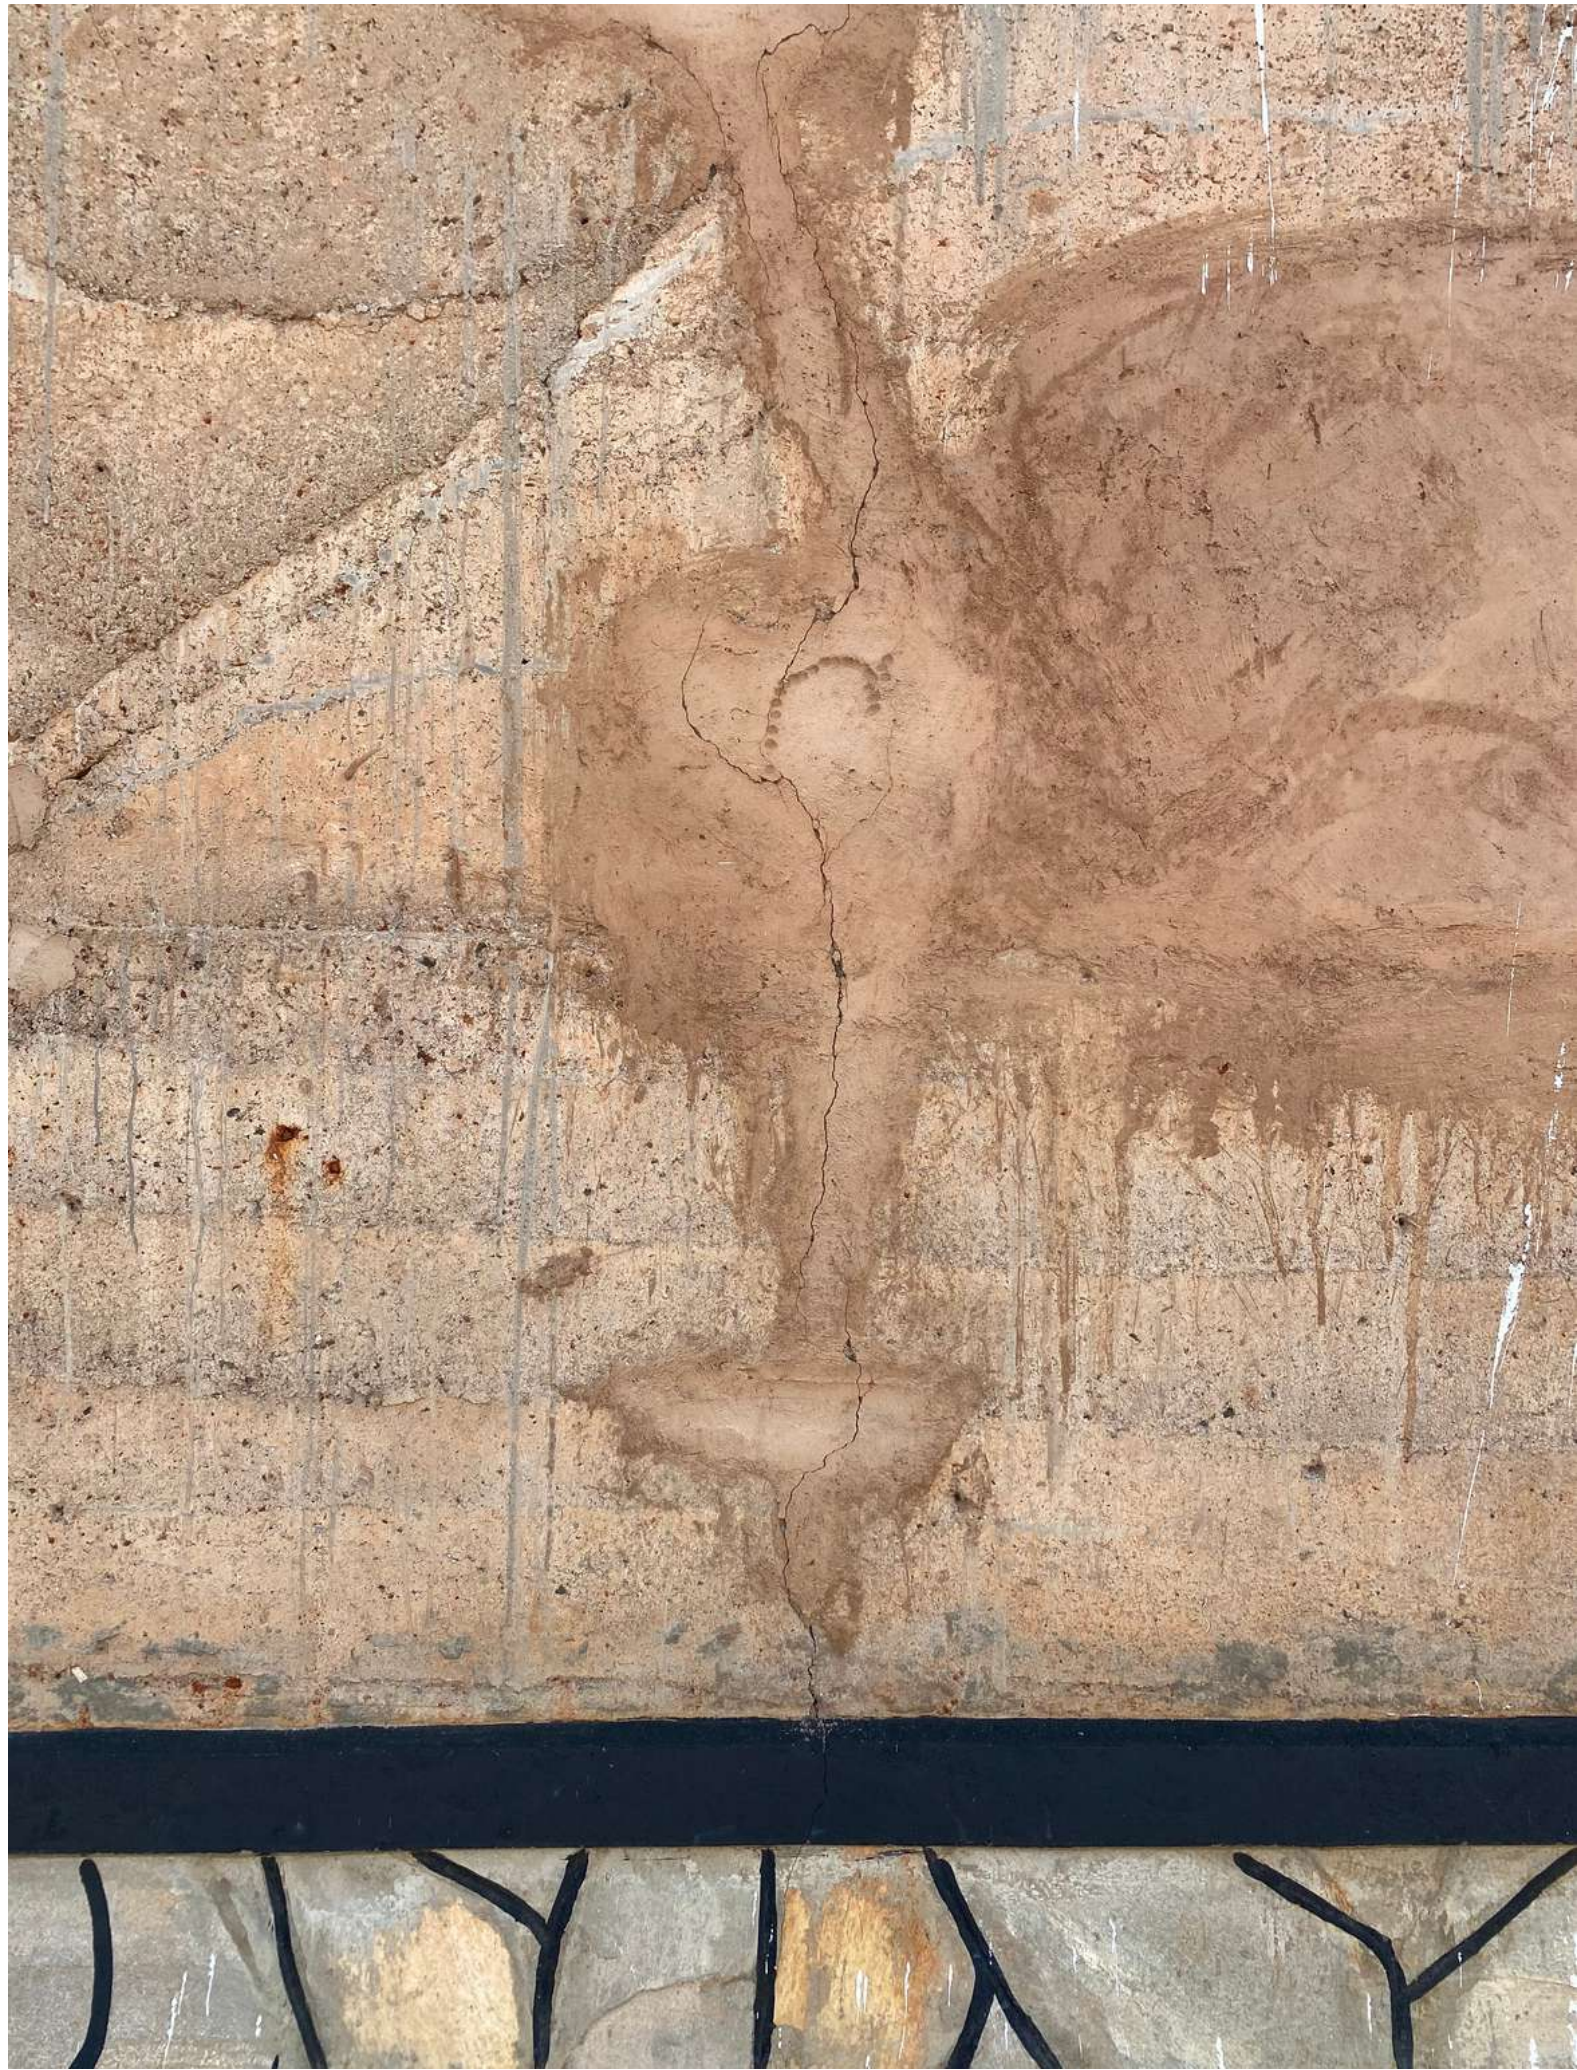

Employing sustainable and affordable building practices

PROTOTYPE ONE - PAGIRINYA SATELLITE HOUSE

PAGIRINYA SATELLITE HOUSE

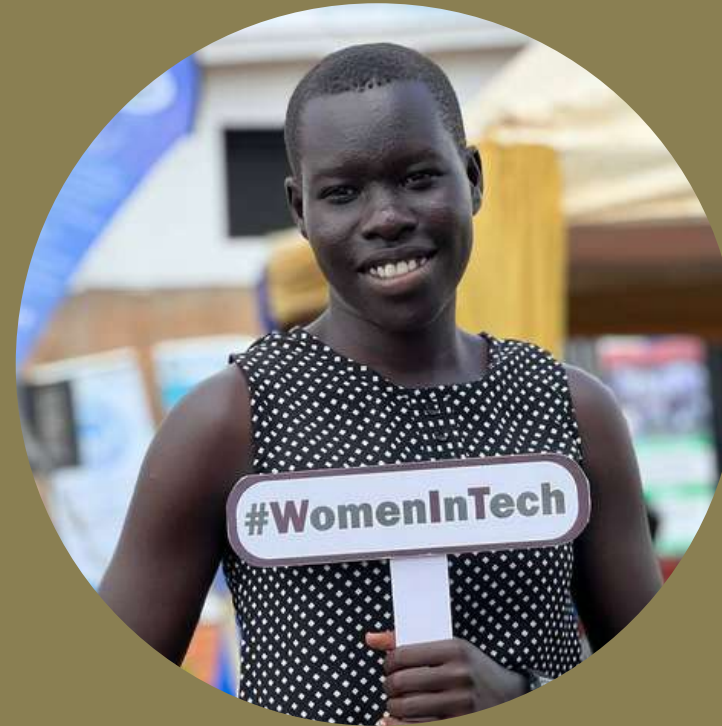

“the building has provided a place to be
able to finish my software engineering
course from here”

-Jack-

“It’s like a natural air conditioner in here.
They have done a great job with this
thatched roof”

-Alumi-

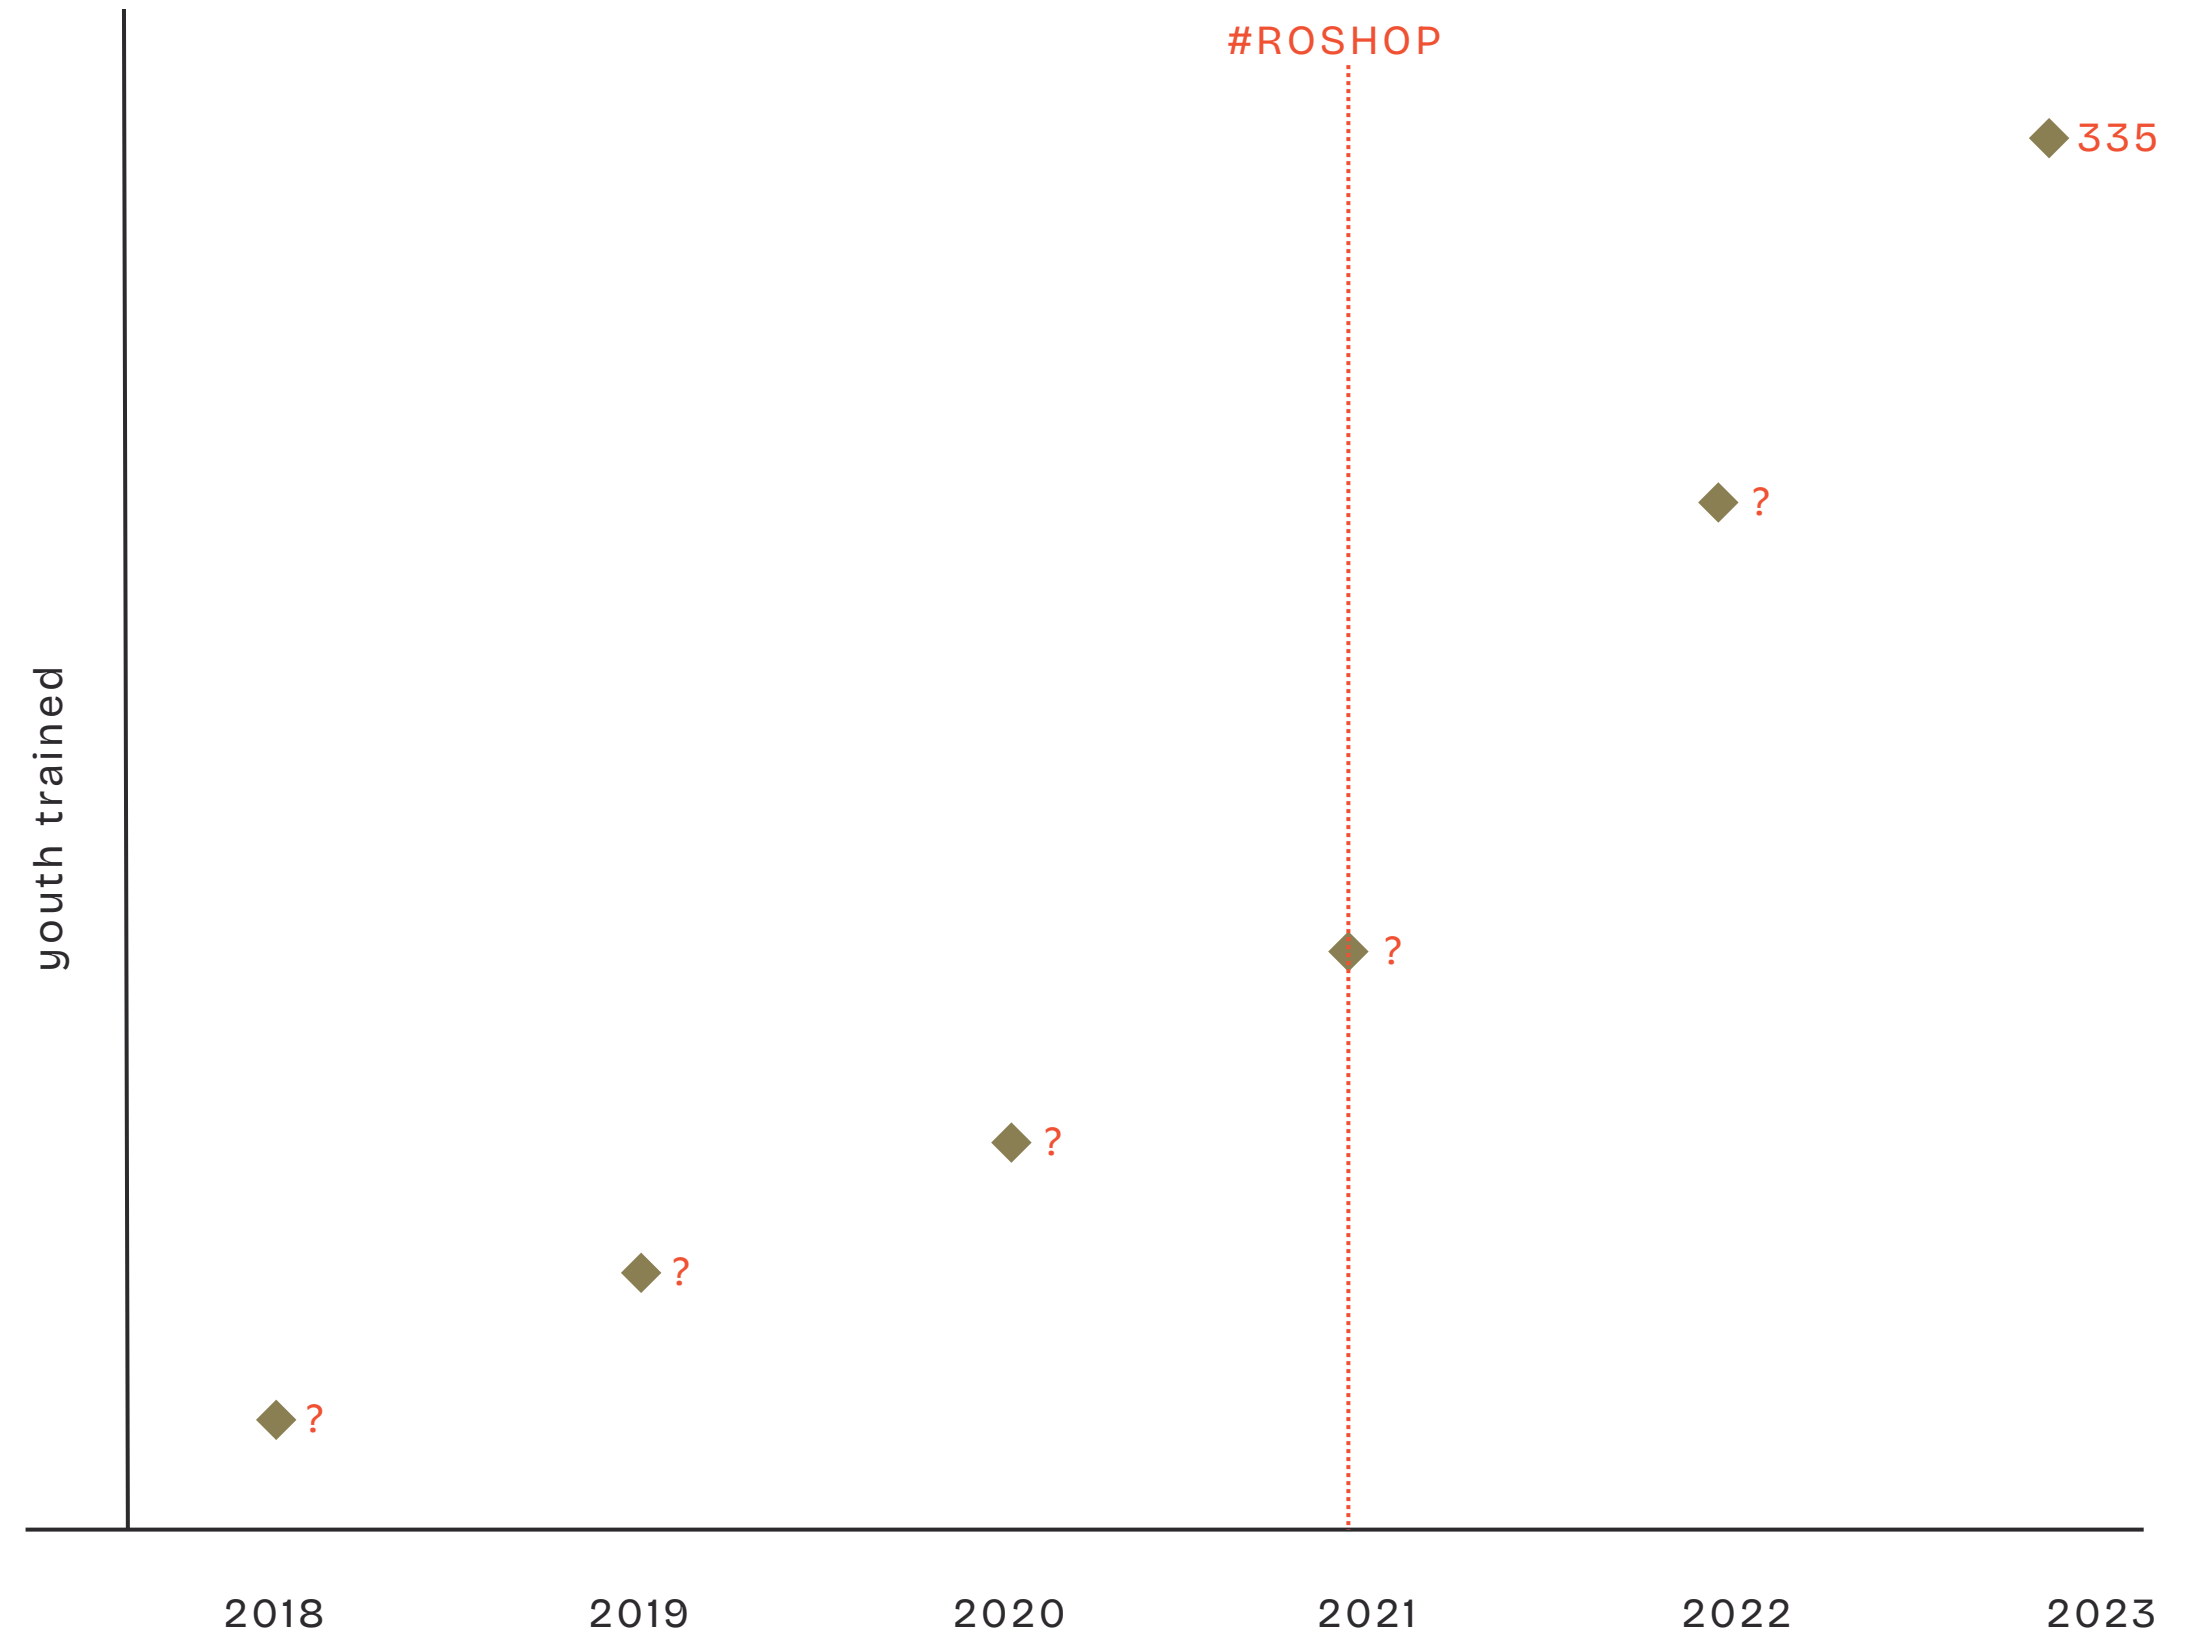

“Now that we have our space, nobody can tell us to shift. Now they ask us, can we use it? And when they come to use, chairs are there, power is there for them, no need to move the generator and all that stuff.”

-Seraya-

IMPACT

An increasing number of
young people being trained on
media and ICT

WOMEN EMPOWERMENT

Prioritising
young girls ICT
training

50 young
girls trained

Hosting women
focused events

ARCHITECTURE LIBRARY

Over 100
Architecture
books

LESSONS LEARNT

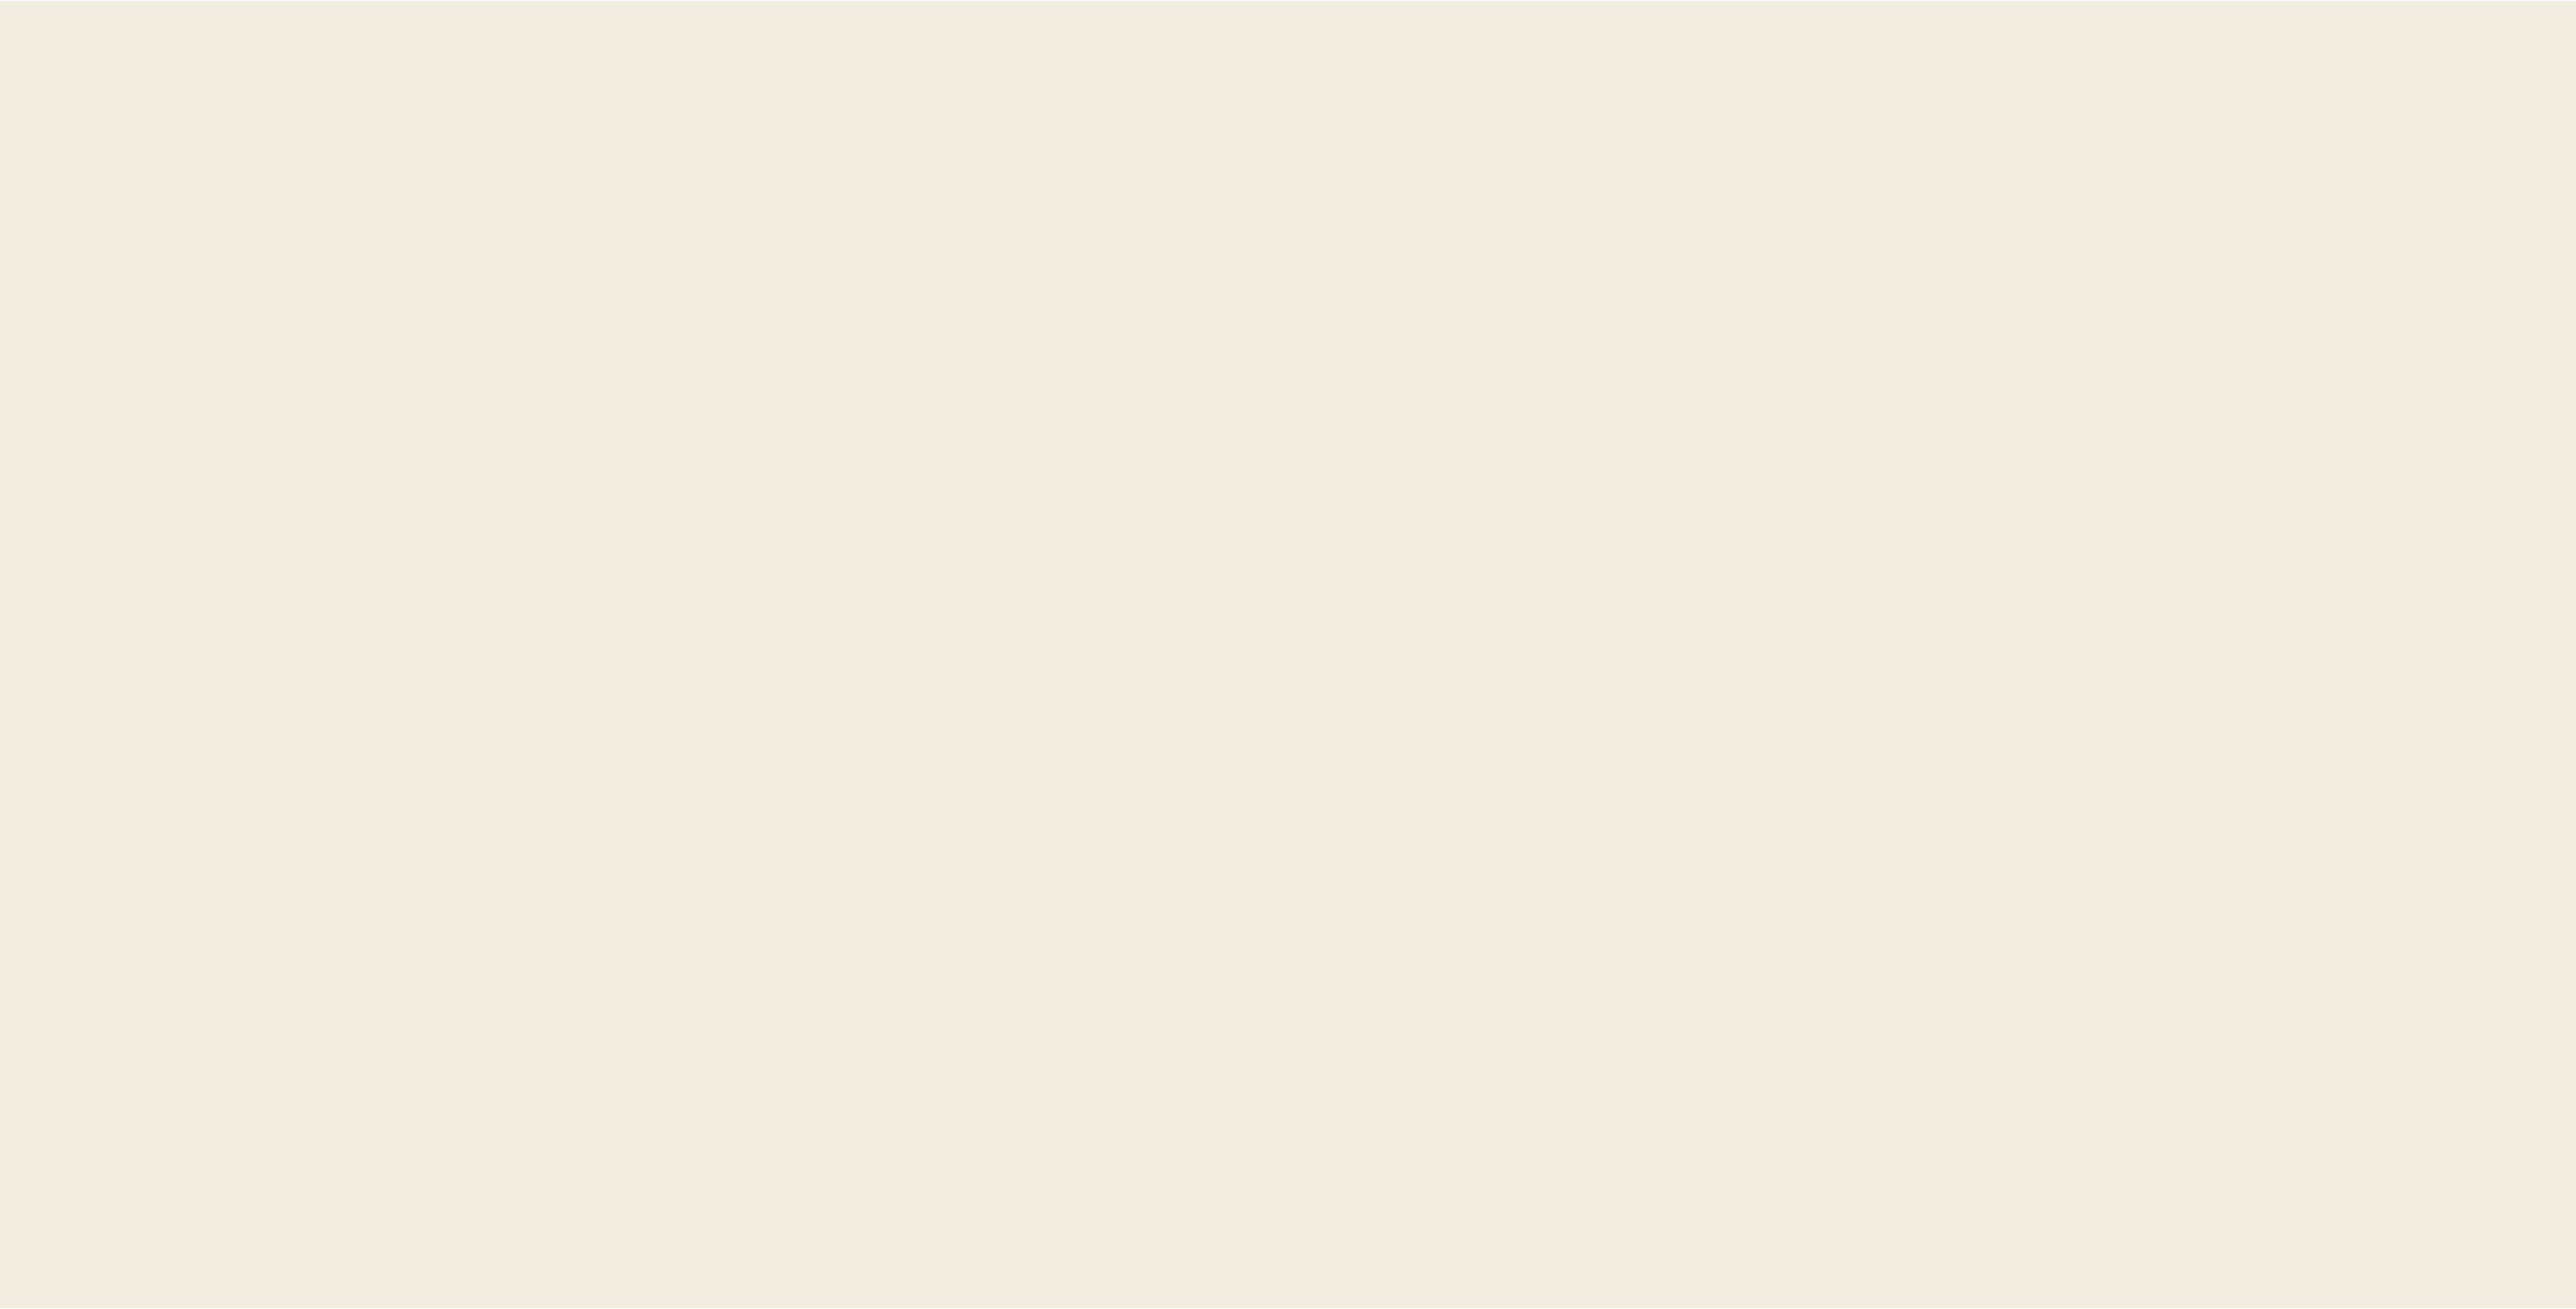

Common practices may prove more suitable

Flexibility and adaptability due to environmental concerns

FUTURE POTENTIAL

IMPLEMENTED AND SUPPORTED BY
